USING CHAPTER MASTER.

Chapter Master can operate in two modes:

1) Working on an individual file, with great flexibility of where to place chapter stops and images (ideal for enhanced podcasts)

or

2) Batch processing a number of files. This mode allows you to place regularly-spaced chapter stops and a single identical image in each file (ideal for audiobooks with many parts).

This tutorial is about batch processing of files (like the several parts of a large audiobook).

03 A Tale of Two Cities 3.m4b

This is the batch processing dialog. As you can see, it has more limited options than the main form. However, you can set cover artwork and/or the first chapter image and set the spacing of regular chapters.

To start the batch process, just click on 'Start'.
